Federal Injury Treatment Centers- 12/23- Present Fort Worth, Tx

Director of Rehabilitation

Provided comprehensive chiropractic care to personal injury and workers' compensation patients, focusing on musculoskeletal rehabilitation and pain management. Performed thorough patient evaluations, including orthopedic, neurological, and functional assessments to determine the extent of injuries and create personalized treatment plans. Administered spinal adjustments, soft tissue therapies, and rehabilitative exercises to improve mobility, reduce pain, and enhance recovery. Maintained detailed documentation of patient progress, treatment plans, and medical necessity for insurance and legal purposes, ensuring compliance with workers' compensation and personal injury case requirements. Collaborated with attorneys, case managers, and insurance adjusters to provide detailed medical reports and impairment ratings supporting patient claims. Educated patients on injury prevention, posture correction, and therapeutic exercises to aid in long-term recovery and prevent re-injury. Worked closely with other healthcare professionals, including physical therapists, pain management specialists, and orthopedic doctors, to coordinate multi-disciplinary care.

Blue Star Rehabilitation- 1/23-12/23 Dallas, Tx

Director of Rehabilitation

Managed the compliance and auditing of all provider medical charting and documentation to for quality, compliance and accuracy. Provided comprehensive physical rehabilitative care to personal injury and workers' compensation patients, focusing on musculoskeletal rehabilitation and pain management. Performed thorough patient evaluations, including orthopedic, neurological, and functional assessments to determine the extent of injuries and create personalized treatment plans. Administered manual manipulation and soft tissue therapies, and rehabilitative exercises to improve mobility, reduce pain, and enhance recovery. Maintained detailed documentation of patient progress, treatment plans, and medical necessity for insurance and legal purposes, ensuring compliance with workers' compensation and personal injury case requirements. Collaborated with attorneys, case managers, and insurance adjusters to provide detailed medical reports and impairment ratings supporting patient claims. Educated patients on injury prevention, posture correction, and therapeutic exercises to aid in long-term recovery and prevent re-injury. Worked closely with other healthcare professionals, including physical therapists, pain management specialists, and orthopedic doctors, to coordinate multi-disciplinary care.

Zenith Injury and Wellness- 03/21- 1/23 Hurst, TX

Director of Rehabilitation

Performed evaluations and treatment plans for patients recently involved in a MVA, along with managing wellness patients. Practice catered to personal injury cases along with cash pay and traditional major medical insurance. Utilized CMT and soft tissue techniques along with passive modalities such as intersegmental traction, cold laser, muscle stimulation and hydrocollator pads. Managing clinical staff and completing clinical coding, billing and documentation was essential.

Parker University- 08/20-03/21 Dallas, TX

Worked as an adjunct faculty member within Parker University's student outpatient clinic reviewing progress notes and documentation completed by Chiropractic students in their final year of their Chiropractic program while ensuring quality and legal compliance.

Injury Relief Chiropractic- 09/19 – 03/20 Frisco, TX

Performed evaluations and treatment plans for patients recently involved in a MVA. Practice was exclusive to personal injury cases where constant communication with attorneys was necessary. Utilized CMT and soft tissue techniques along with passive modalities such as intersegmental traction, cold laser, muscle stimulation and hydrocollator pads. Managing clinical staff and completing clinical coding, billing and documentation was essential.

The Joint Chiropractic- 01/18 – 09/19 Columbus, OH/ DFW Area, Texas

Provided wellness care as a Chiropractor which consisted of manipulation of spinal and extremity articulations within a wellness/membership model. Wellness exams were performed for all new patients and documentation was completed with every patient visit. No insurance was accepted and was an all cash practice. Speaking with patients discussing the benefits of continued wellness care and transitioning them into becoming a monthly member.

Broadway Orthopedics and Sports Medicine- 01/17- 01/18 Cleveland, OH

Performed examinations and sports/school physicals for new and existing patients while focusing treatment, physical diagnosis and radiological diagnosis on common neuromusculoskeletal conditions. Office consisted of another DC, an MD, a NP and a PT. Commonly treated conditions were referred to the medical side of the clinic as needed for bursa injections and trigger point injections along with prescribing DME and ordering NCV/EMG tests. Also, treated worker's compensation patients and personal injury patients. Managing clinical staff and completing clinical coding, billing and documentation was essential.

Advanced Spinal Care and Rehabilitation- 08/16- 01/17 Coshocton, OH

Performed examinations and sports/school physicals for new and existing patients while focusing treatment, physical diagnosis and radiological diagnosis on common neuromusculoskeletal conditions. Office consisted of another Chiropractor, an MD, a NP and a PT. Commonly treated conditions were referred to the medical side of the clinic as needed for bursa injections and trigger point injections along with prescribing DME and ordering NCV/EMG tests. Also, treated worker's compensation

patients and personal injury patients. Managing clinical staff and completing clinical coding, billing and documentation was essential.

Mansfield Injury Center- 01/16-08/16 Mansfield, OH

Performed evaluations and treatment plans for patients recently involved in a MVA. Practice was exclusive to personal injury cases where constant communication with attorneys was necessary. Utilized CMT and soft tissue techniques along with passive modalities such as intersegmental traction, cold laser, muscle stimulation and hydrocollator pads.

Whiteamire Clinic- 06/15-1/16 Mansfield, OH

Family practice consisting of mainly wellness patients. Utilized CMT and soft tissue techniques along with passive modalities such as intersegmental traction, cold laser, muscle stimulation and hydrocollator pads. Office closed down due to doctor owner retiring.

Pamer Chiropractic- 3/08-12/08 Mansfield, OH (Managerial)

Functioned as the marketing manager attracting new patients through health screenings, health fairs, patient education events along with creating new business relationships with health related retail chains such as The Vitamin Shop. As marketing manager, my duties also included calling upon organizations, correctional facilities, and industrial companies to establish or reiterate professional compliance related to whole health education for the purposes of attracting new patients. My position also required patient reiteration of service protocols.

The Ohio State University- 1/07-12/08 Mansfield, OH (Managerial)

Attended Ohio State University intending to obtain first college degree. Purpose in doing so was to further broaden my knowledge and skills to better serve as an

additional modality in matriculating into a Bachelors level degree for admission into a doctorate program. Also, worked as a college math tutor in charge of groups of 10 or more individuals directing and instructing for optimal success.

- Worked as algebra and trigonometry tutor within the math department of the University.

- Made Deans List 7 out of 8 terms while attending Ohio State University.
- Graduated with honors.
- Cumulative GPA 3.72

National University of Health Sciences - 1/09-8/10 Lombard, IL

Attended National University of Health Science to obtain first bachelor's degree to fulfill requirements for a future admission into a doctoral program.

- Graduated with honors (summa cum laude)
- Cumulative GPA 3.70

Palmer College of Chiropractic- 6/11- 6/15 Davenport, IA

Attended Palmer College of Chiropractic to obtain first doctoral degree in order to fulfill requirements in becoming a primary care doctor specializing in pain management and wellness.

Walden University- 6/15- 11/17 Minneapolis, MN

Attended Walden University in order to obtain master's degree in Health Psychology for the purpose of adding to current knowledge base of efficiently and effectively treating acute and chronic pain patients, along with preparing academically for the PhD program in Health Psychology.

Walden University- 11/17- Present Minneapolis, MN

Attending Walden University in order to obtain a Doctoral degree in Health Psychology for the purpose of adding to current knowledge base of efficiently and effectively treating acute and chronic pain patients, along with preparing academically for future research, administrative and/or teaching in an academic setting.
