

# Angeli Kapoor, DDS

---

## Qualified Medical Evaluator | Expert in Complex Dental Injury Assessment & Full-Mouth Reconstruction

Experienced, California-licensed general dentist with 20+ years of clinical and surgical expertise, specializing in prosthetics, dental implants, full-mouth reconstruction, and CT scan interpretation. Skilled in managing emergency dental trauma, assessing causation, evaluating standard-of-care compliance, and preparing detailed medical-legal reports that hold up in litigation. Expertise includes implantology (All-on-4), crown/bridge, TMJ evaluation, and forensic-quality case documentation. Adept at communicating clinical findings to legal teams and testifying in deposition when needed. Now available as a QME to support attorneys in personal injury, workers' compensation, and dental malpractice cases.

Dr. Kapoor is a Qualified Medical Evaluator with more than 20 years of clinical experience in the diagnosis and treatment of temporomandibular joint (TMJ) disorders, occlusal dysfunction, bruxism, and dental trauma. Throughout her career, she has evaluated and managed a broad spectrum of complex cases involving acute and chronic TMJ pathology, trauma-related dental injuries, myofascial pain, occlusal instability, and parafunctional habits. Her extensive clinical background provides a strong foundation for objective medical-legal evaluations, with particular expertise in causation analysis, diagnosis, treatment planning, impairment assessment, and the long-term effects of trauma and bruxism on oral health and function.

## Professional Experience

### **Global Implant Dentistry — Tustin, CA**

Managing Dentist | 2018–2023

- Led complex implant and full-arch reconstruction cases with CT-based diagnostics.
- Conducted comprehensive medical-legal style evaluations for implant failures and prosthetic complications.
- Trained clinicians on prosthetic workflows, compliance, and CT image-based case planning.
- Audited and authored documentation aligned with Medicare and forensic charting standards.

### **Crossroads Dental — Irvine, CA**

General & Cosmetic Dentist | 2010–2018

- Treated high volumes of restorative and prosthodontic cases, many involving injury or emergency intervention.
- Produced thorough reports with photographic and radiographic evidence for insurance and patient legal records.
- Advised billing teams on CDT/ICD compliance and prepared backup documentation for denied claims.

### **Smile Brands / Western Dental — Santa Ana & Westminster, CA**

General Dentist | 2005–2010

- Operated in high-throughput clinical environments requiring acute diagnosis and rapid emergency care.

- Developed an early interest in dental trauma, imaging, and patient advocacy within legal frameworks.

- Participated in interdisciplinary case reviews for complex prosthetic and surgical rehabilitation cases.

### **Technology & Imaging Tools**

- CBCT & CT Scan Review Software
- Digital Radiography, Panoramic X-rays
- Dentrax, Open Dental, Eaglesoft
- Claims Platforms: DentalXChange, ClaimConnect
- HIPAA-Compliant Remote Tools: Zoom, Google Meet

### **Personal Interests**

Spending time with my family, yoga, movies, and traveling.
