CLINICAL EXPERIENCE

- Since 10/08 Appointment as a Forensic Evaluator for the California Superior Court in Santa Clara County.

Service including forensic evaluations of defendants charged with criminal offenses to provide guidance to the court in regards to mental health matters. Interviewing inmates, reviewing legal and medical documents, conducting mental status exams, psychological, neuropsychological, and forensic testing, to answer psycho-legal questions addressed by the court. The defendants' age ranges from adolescents to old adults, including males and females, with a diverse cultural background. Frequently using interpreters to aid in evaluations. Psycho-legal questions includes

competence to stand trial, criminal responsibility, sexual and general recidivism, suitability for probation, etc.

Since 01/07 Consulting Psychologist for the California Department of State Hospitals (DSH).

Evaluating inmates/individuals pursuant to WIC 6600 (the Sexually Violent Predator Law). Duties include interviewing the inmates/individuals in prisons, jails, or forensic hospitals, reviewing medical and legal records, and writing reports, including results from mental status exams and psychological testing, providing diagnosis and risk assessment, and rendering opinion whether the inmate is positive or negative on the three legal prongs of the SVP law. Testifying in the superior courts in California counties. The age of the inmates/individuals ranges from young adolescents to old adult and includes females and males from a diverse cultural background. Frequently using interpreters to aid in evaluations. Continuously reviewing new research findings regarding diagnosis, risk assessment, and treatment of high risk sex offenders.

Since 01/07 Private Practice in Forensic and Clinical Psychology, San Jose, CA.

09/05-08/06 Postdoctoral Fellowship in Forensic Psychology at Patton State Hospital, CA.

Conducted an extensive number of forensic evaluations and risk assessments, as well as psychological evaluations. Provided short-term and long-term individual psychotherapy and structured and process oriented group psychotherapy with an emphasis on restoring court competency, dealing with mental illness, and relapse prevention. The patient groups included MDOs (Mentally Disordered Offenders), MDSOs (Mentally Disordered Sex Offenders), NGRIs (Not Guilty by Reason of Insanity) and ISTs (Incompetent to Stand Trial). The age of the inmates/individuals ranges from young adults to old adult and includes females and males from a diverse cultural background.

09/04-08/05 Clinical Psychology Intern with Forensic Psychology Focus, Patton State Hospital, CA.

The Patton State Hospital's clinical psychology internship is a member of APPIC. Services provided included, but were not limited to, an extensive number of psychological evaluations, forensic evaluations and risk assessments. Conducted short-term and long-term individual psychotherapy and structured and process oriented group psychotherapy with an emphasis on restoring court competency, dealing with mental illness, and relapse prevention. The patient groups included MDOs (Mentally Disordered Offenders), MDSOs (Mentally Disordered Sex Offenders), NGRIs (Not Guilty by Reason of Insanity) and ISTs (Incompetent to Stand Trial). The age of the inmates/individuals ranged from young adults to old adult and includes females and males from a diverse cultural background. Testified as an expert witness at a MDSO extension court trial at the California Superior Court, San Bernardino County.

01/02-05/04 Psychotherapist, The Berkeley Psychotherapy Project, University of California, Berkeley.

Provided psychotherapy in a research project that studied long-term psychodynamic psychotherapy of depression conducted by experienced psychotherapists in a naturalistic design. Since I did not have a California license at that time, I was supervised by Dr. Peter Goldberg on a weekly basis. The treatment was audio and videotaped and conducted biweekly for 160 sessions.

08/00-05/02 Clinical Practicum, The Psychology Clinic, University of California, Berkeley.

Provided adult individual, child/family, and couples therapy in multicultural diverse, low-to middle class clients, based on psychodynamic, family systems, and dialectic theoretical models. Provided

psycho-educational and neuropsychological assessments, crisis interventions, suicide assessments, family and school consultation. Collaborated with legal and social services.

- 08/93-08/99 Staff Psychologist at The Psychosis Unit/Vällingby Psychiatric Team, Stockholm, Sweden.
Staff psychologist at a specialist clinic for in- and outpatient treatment of psychosis and severe personality disorders with a diverse cultural population. The age of the patients ranged from adolescence to old adult, both males and females. Provided long-term individual therapy (psychodynamic, cognitive, and behavioral), family therapy, couples therapy, supportive psychotherapy, crisis intervention, and consultations. Conducted psychological evaluations, including diagnosis, assessing suitability for therapy, suicide risk, the need for emergency inpatient care, and neuropsychological testing. Provided psycho-education to patients and relatives. Duties also included being the senior clinical supervisor for the nursing staff at an inpatient psychiatric ward for patients with chronic schizophrenia and supervising other professionals in clinical work, including clinical psychology interns. Also participated in organizing community outreach projects.
- 10/93-08/99 Private Practice in Psychoanalysis and Psychotherapy, Stockholm, Sweden.

Provided psychoanalysis and psychotherapy, specialized on the treatment of psychosis, mood disorders, and personality disorders. The age of patients ranged from young adolescence to middle aged adults, both males and females. Since some of the patients were still minors, family sessions were provided when appropriate. Treatment was coordinated with inpatient wards at local hospitals for patients that were severely psychotic and temporarily required hospitalization.
- 11/92-08/93 Clinical Psychology Intern, the Psychiatric Clinic, Gällivare Hospital, Sweden.

Provided individual psychotherapy, family therapy, couples therapy, supportive psychotherapy, psychological testing, and neuropsychological testing, in an outpatient and inpatient setting, including psychiatric emergency unit and long-term wards. Supervised by a licensed psychologist to accrue hours for my licensure. Member of a multiprofessional psychiatric treatment team, with psychiatrists, social workers, vocational therapists, psychiatric nurses, and psychiatric technicians.
- 06/92-11/92 Clinical Psychology Intern, Rättspsykiatriska Regionenheden, Sätters Sjukhus, Sweden.

Provided psychological treatment and assessments under the supervision of a licensed psychologist at a high security forensic psychiatric hospital to a population of patients who had been found criminally insane. The patient population consisted of psychotic and personality disordered males and females who had committed criminal offenses, such as sexual assaults, violent assaults, bank robberies etc. Member of a multiprofessional psychiatric treatment team, with psychiatrists, social workers, vocational therapists, psychiatric nurses, and psychiatric technicians.
- 08/90-05/92 Clinical Practicum, The Psychology Clinic, Umeå University, Sweden.

Provided Brief Psychodynamic Psychotherapy conducted according to theoretical models by David Malan, MD and James Mann, MD in an outpatient setting.
- 05/87-05/93 Psychiatric Aid/Orderly, Norrlands University Hospital, Umeå, Sweden, and Gällivare Hospital, Gällivare, Sweden.

Provided daily care to patients in acute psychiatric, psycho-geriatric, chronic psychiatric, forensic, and adolescent wards and the detox units. Worked in total approximately 2500 hours. Assigned specific patients to work with more intensively. Provided supportive therapy and family meetings, etc. for

these patients, and was supervised by psychiatric RNs. Participated as a staff member at treatment conferences.
