Owner, Hamilton Chiropractic; Orange, California, 2008-2013

## SKILLS

- Dr. Heather's best skill is that she is a people person. She rarely finds it hard to communicate with anyone. With this seemingly innate talent, Dr. Heather has been able to win the confidence of many a skeptic patient. Since she was helped tremendously as a chiropractic patient herself, her passion is truly palpable and contagious. Being once a skeptic herself, she understands where others are coming from and meets them where they are to show them where they could be with their health.
- Dr. Heather truly loves chiropractic so she has been continuing her education through various technique seminars, even when she stayed home to raise her children. She believes she has found a way of adjusting that gets results quicker and longer lasting than she has in over 20 years of being a chiropractor. She can't wait to get back to work, helping others in the way she was helped when she was only 20 years old.
