{Job Experiences}

**Podiatric Physician/Surgeon; Family Foot & Ankle Center, Upland, California;
April 2025 – Current.**

- Specializing in musculoskeletal and acute-to-chronic pain in the complex areas of the foot and ankle to help patients maintain active and independent lifestyles.
- Utilized non-surgical approach of treatments which includes biomechanic therapy consultations, ultrasound guided treatments, custom foot orthotics and variety of injections (PRP, amniotic, hyaluronic acid, cortisone, etc.)
- Implementing podiatry standard of care and manage practice-owned surgical center
- Provided expert care and management in the areas of wound care and limb salvage while working alongside a multi-specialty team in the practice-owned wound care center

Podiatrist; Family Health Care Centers of Greater Los Angeles, Bell Gardens, California; February 2025 – Current.

- Podiatric physician providing health care and healing in the areas of the foot and ankle for the underserved population, and those with limited access to quality medical care
- Actively engaging with the local Bell Gardens community to address social determinants of health, advocate for patients' needs and improve public health education
- Coordinate care with other medical specialists, social workers, and other healthcare professionals to provide holistic patient management
- Ability to work in challenging environments with complex patient needs, while navigating with limited resources

Medical Director; Family Medical Center, North Hollywood, California; January 2025 – Current.

- Leadership role that oversees and supervises the care provided by clinic PA's and NPs, ensuring the highest standards of patient care in podiatry
- Collaborating with other medical subspecialties in the community clinic, promoting a multi-specialty practice
- Business management leadership by developing comprehensive strategies to achieve sustainable growth and podiatric practice expansion within this community clinic
- Support initiatives to improve the quality and access of medical care in the North Hollywood and surrounding Los Angeles community

Podiatry Section Chair; Mills-Peninsula Medical Center, Burlingame, California; November 2022 – June 2025.

- Primary leader that led the podiatric surgical subspecialty within the larger orthopedic surgery department, overseeing clinical standard scope of care and quality improvements.
- Collaborating with other medical and surgical leaders across all specialties to ensure high-quality patient care across the hospital and community.
- Managing staff and advocating for the section's needs within the broader surgical department.
- In the tenure, helped to start a podiatry on-call team (which has been absent for several decades) and to implement a wound care center for the community in the Bay Area Peninsula.

Podiatric Physician/Surgeon; North Peninsula Podiatry Group, San Bruno, California; August 2016 – May 2025.

- Specializing in musculoskeletal and acute-to-chronic pain in the complex areas of the foot and ankle
- Provide comprehensive foot/ankle care to help patients maintain active and independent lifestyles.
- Utilized non-surgical approach of treatments which includes biomechanic therapy consultations, ultrasound guided treatments, custom foot orthotics and variety of injections (PRP, amniotic, hyaluronic acid, cortisone, etc.)
- Privileges at Mills-Peninsula Medical Center performing Forefoot reconstructive surgery, Soft Tissue Surgery, Foot/ankle Trauma Surgery

Wound care Physician, Limb Salvage Specialist, HBO certified supervisor; Mission Oaks Wound Care Center at Good Samaritan Hospital, San Jose, CA; October 2016 – April 2022.

- Wound Care and HBO Specialist at Good Samaritan Hospital San Jose and Mission Oaks Wound Center to provide extensive and comprehensive wound care and limb salvage
- Provided limb salvage and wound care with high percentage of success, while using various modalities including negative pressure therapy, HBO, biomechanics, assessing vascular insufficiencies, and utilizing advance bioengineered cellular skin substitute products
- Worked in a multi-specialty medical center, being able to network and communicate to an array of physicians of varying specialties and background

PMEAC (Podiatric Medicine Education Advisory Committee) Board Member, Oakland, CA; May 2019 – End of 2021

- Council board of trustees member serving certain specific purposes pertaining to the DPM program at California School of Podiatric Medicine in Samuel Merritt University, including voting responsibilities with regards to the funds being distributed for educational purposes
- Advisory role for CSPM in such areas as curriculum focus and strategic direction of the university
- Liaison to represent the program to the podiatric profession and the larger medical community
