Internal Medicine Board Certified

Basic Life Support

Advanced Cardiovascular Life Support

HOSPITALIST • ASSISTED LIVING & SKILLED NURSING FACILITIES • OUT-PATIENT CLINICS • NURSING HOMES

I am a board-certified Internal Medicine physician with nearly 20 years of experience providing comprehensive, evidence-based care to adult and geriatric patients across a wide range of clinical settings, including hospitals, outpatient clinics, skilled nursing facilities, assisted living communities, and long-term care environments.

Throughout my career, I have remained deeply committed to delivering personalized, compassionate care that respects the dignity, values, and goals of each individual. I bring a strong clinical foundation and a holistic understanding of the medical and psychosocial complexities that affect patients—particularly those managing multiple chronic conditions or navigating transitions in care.

My work has been guided by a core belief in continuity, communication, and collaboration, whether coordinating with interdisciplinary teams in nursing homes, supporting families in assisted living settings, or managing acute episodes in inpatient environments. I strive not only to treat illness, but to promote wellness, preserve independence, and advocate for the best possible outcomes for every patient under my care.
