EXPERIENCE

Fellowship, Geriatric Medicine

UCLA-VA, Los Angeles, CA
Jul 2024 - Present

- Managed primary care and consultant panel of geriatric patients, including civilian and Veteran population
- Collaborated with cross-functional teams to coordinate resources and ensure successful execution of treatment plans across in-patient, out-patient, post-acute, and long-term care settings
- Guided goals-of-care discussions throughout the continuum of care
- Performed qualitative and quantitative research to identify opportunities for improvement within EHR and clinic workflow
- Developed and delivered geriatric education sessions to medical students, residents, and community members

Resident Physician, Internal Medicine

Ochsner Health, New Orleans, Louisiana
Jul 2021 - Jun 2024

- Provided comprehensive medical care for complex adult patients in a tertiary care center
- Triage acuity level of care and provided stabilization of illnesses in both out-patient and inpatient settings

Lead and participated in weekly academic activities to discuss diagnosis and management strategies

- Collaborated with a multidisciplinary team to implement geriatric "4M" framework hospital-wide via EHR tool

Population Health Management Intern

Amerihealth Caritas, New Orleans, LA

Oct 2020 - Nov 2020

- Studied principles of Medicaid managed care and population health management
- Developed a population health quality improvement project aimed at reducing costs, enhancing resource allocation, and addressing health inequities for Medicaid recipients in Southeast Louisiana

Health Policy Fellow

LSU/Amerihealth Caritas, New Orleans, LA

May 2018 - Jul 2018

- Attended congressional briefings, committee hearings, and seminars related to Health & Human Services
- Researched state-federal relations and compiled informational resources to support legislative members in navigating health policy issues
- Co-facilitated a session on Healthy People 2030 at NCSL's 2018 Annual Legislative Summit in Los Angeles, highlighting data-driven national objectives aimed at improving health and well-being over the next decade
