

ROBERT DINH

Chiropractor

PROFESSIONAL SUMMARY

Dedicated and patient-focused Doctor of Chiropractic with extensive experience delivering high-quality musculoskeletal care, personalized treatment plans and evidence-based therapeutic interventions. Known for strong patient communication, thorough assessments, and a commitment to restoring function, reducing pain, and improving overall wellness. Skilled in managing diverse patient populations and collaborating effectively with multidisciplinary healthcare teams.

WORK EXPERIENCE

HORUS MULTI-SPECIALTY MEDICAL GROUP

Chiropractic Physician

Mar 2023 - Nov 2025

- Treated a high-volume caseload while maintaining individualized, evidence-based care for each patient.
- Conduct detailed patient evaluations using orthopedic, neurological, and functional movement assessments.
- Develop individualized care plans tailored to patient goals, health history, and diagnostic findings.
- Collaborate closely with primary care physicians, physical therapists and massage therapists when indicated.
- Maintain accurate, compliant documentation using EHR systems and uphold best practices for patient safety and confidentiality.
- Supported clinic operations by assisting with patient flow, treatment planning, and follow-up care.

DINH CHIROPRACTIC, PC

Chiropractor and Owner

Jul 2003 - Aug 2016

- Provide comprehensive chiropractic care, including spinal adjustments, soft-tissue therapies, and rehabilitative exercises for patients with acute and chronic conditions.
- Performed spinal and extremity adjustments, physiotherapy modalities, and corrective exercise-based interventions.
- Educate patients on posture, injury prevention, home-care routines, and wellness strategies to support long-term improvement.
- Manage cases involving work-related accidents, auto injuries and chronic pain conditions.
- Participated in community outreach and wellness events to educate the public on chiropractic and preventive health.
- Achieve consistently high patient satisfaction scores and strong retention through clear communication and compassionate care.
