Professional Experience

Shaw Chiropractic and Wellness 2009 - 2023

Chiropractor/Owner

- Developed and led wellness classes on spine health and nutrition, effectively educating patients and enhancing their engagement with health topics.
- Collaborated with healthcare providers to create integrated treatment plans, demonstrating a commitment to comprehensive patient care.
- Conducted detailed health assessments and specific Chiropractic adjustments.

Alternacare

Functional Medicine Provider - Telehealth

- Managed a high volume of patient consultations while providing thorough responses to clinical inquiries, showing in-depth knowledge of functional medicine practices.
- Collaborated with other practitioners and case managers to enhance the patient experience and ensure effective communication across teams.

LeGrand Wellness

Chiropractor

- Conducted in-depth health assessments and delivered individualized chiropractic care, including precise spinal adjustments tailored to patient needs. Developed and implemented comprehensive treatment plans with a focus on improving function, reducing pain, and supporting long-term wellness through evidence-based, patient-centered care.

Skills

- Expertise in nutrition and functional medicine
- Strong presentation and communication skills for live and virtual audiences
- Development of educational content and resources (written articles, videos, webinars)
- Experience in training and supporting healthcare teams
- Collaborative problem-solving with integrative teams

LifeKind Health - Current Employer

Chiropractor

- Performed thorough health assessments and delivered targeted chiropractic adjustments as part of a comprehensive care approach. Collaborated within a transdisciplinary clinic alongside nurse practitioners, medical doctors, physician assistants, social workers, psychologists, acupuncturists, and dietitians to develop integrated treatment plans, reflecting a strong commitment to holistic and patient-centered care.

Skills

- Adept at training, mentoring, and providing ongoing support to interdisciplinary healthcare teams
- Effective in collaborative problem-solving within integrative and transdisciplinary clinical settings
- Proficient in nutrition and functional medicine with a focus on individualized, evidence-based care
- Skilled in delivering engaging presentations and clear communication to both live and virtual audiences
